

# *FLOSS education and computational thinking workshop* **@ OSS 2016**

**Call for Papers**

This workshop is co-located with the **12th International Conference on Open Source Systems**, which will take place 30 May – 02 June 2016 in Gothenburg, Sweden's second biggest city.

## **Important dates:**

<b>March 15</b>	Deadline for papers
<b>April 05</b>	Notification of acceptance to authors
<b>April 15</b>	Early bird registration for workshops
<b>April 27</b>	Camera ready version due
<b>June 02</b>	Workshop

## **Submissions:**

- Papers: 4 to 8 pages, conform to the Springer Formatting Guidelines (LNCS).
- All submissions will be peer-reviewed single blinded.
- Proceedings will be published in the website.
- Authors will keep the copyright of their work.

## **Venue:**

The conference venue is Lindholmen Conference Center, an internationally renowned Science Park in the fields of intelligent transport systems, mobile internet and media.

## **Main Workshop Topics**

The topics of interest of this workshop include but are not limited to:

- Teaching experiences with FLOSS/free content
- FLOSS in higher education
- FLOSS in K-12
- FLOSS practices in education
- FLOSS in the curriculum
- Computational thinking teaching and FLOSS
